- ✓ Drain cleaning accessories can be added for additional functionality

High pressure washer accessories

There are a variety of machine accessories for customizing cleaning methods so that you can achieve optimum results.

- ✓ Increase in cleaning productivity - trolleys, pallets etc. will be cleaned in a shorter time vs the conventional manual cleaning with bucket, brush and cloth
- ✓ Achieve a deeper clean
- ✓ More hygienic and safe – no touch system - trolleys or pallets do not need to be physically touched by operator when cleaning
- ✓ Chemical foaming allows for more contact time and even distribution of chemical - “thick shaving cream”
- ✓ Longer contact time allows for better killing of germs and bacteria
- ✓ Disinfectant chemical can be sprayed on the trolley or pallet after cleaning and left to dry for a longer period making for a more effective disinfecting process
- ✓ Drain cleaning accessories - added value - allows you to fix your own minor blockage problems cost saving for your business
